

Eco-solvent printable materials
for the decoration, manifestation and
enhancement of the glazed environment

eco-solvent
ink jet printable

LINTEC's eco-solvent range enables designers, architects and graphics professionals to transform the glazed environment into vibrant and exciting advertising, design and corporate identity opportunities. The wide printing compatibility, ease of handling and near perfect optical clarity makes it the first choice for premier brands and creative glazing applications.

The films are constructed using the finest optical quality components ensuring optimum light transmission, low haze and minimal distortion. All manufacturing is carried out in clean-room conditions using precision equipment to ensure superior defect-free consistency.

Highly suitable for the decoration, manifestation and enhancement of the glazed environment and by selectively printing areas introduces both decoration and privacy. Once printed they can be easily fitted on site via wet application methods.

A range of films is available to comply with all performance requirements; from short term point-of-sale to long term architectural applications. LINTEC's eco-solvent films can also be overlaminated with ultra-clear films to add additional abrasion resistance and UV protection.

- ECO printable 
- Optically clear 
- Outdoor durability 
- optional
- Scratch resistant 
- Removable adhesive 
- Permanent adhesive 

Optically clear eco-solvent printable glazing enhancement film

Lintec Europe's unique eco-solvent topcoating is specifically designed for printing with eco-solvent inks and has been tested and approved by leading printer manufacturers.

Utilising dimensionally stable polyester film, the products feature a unique surface topcoating, engineered to accept eco-solvent inks. The products are available with permanent adhesive, removable adhesive or without adhesive* (for reverse print applications). The wide printing compatibility, ease of handling and near perfect optical clarity makes it the first choice for creative glazing applications.

* A full range of optically clear mounting adhesives is available – please ask for further information and samples.

Product code	Facestock	ECO	ECO printable	Optically clear	UV filtering	Scratch resistant	Outdoor durability
E-1000ZC	75µ polyester	✓	✓			✓	
E-1004RC	75µ polyester	✓	✓			✓	
G-1100EC	75µ polyester	✓	✓			✓	

Product code	Adhesive	Removable adhesive	Permanent adhesive	UV filtering	Liner	Roll size
E-1000ZC	NPL		✓		25µ clear polyester	1220mm x 50m
E-1004RC	R55	✓			25µ clear polyester	1220mm x 50m
G-1100EC	no adhesive				-	1220mm x 50m
