

We're serious about sustainability and constantly seek to reduce our environmental impact across the production process. The development of our award winning recycled labelstock is a direct result of this commitment.

In 2016, over 480bn plastic drinking bottles were sold worldwide and this figure is forecast to increase to 583.3bn by 2021. Fewer than half the bottles bought in 2016 were recycled.\*

By using over 80% recycled PET as the raw material for the Mothergreen range of films we're helping to address this issue. Furthermore, the manufacturing of this face film consumes less fossil fuel and produces 24% lower CO2 emissions than alternative approaches.

There's no compromise on quality. The films offers the equivalent transparency and conversion properties as conventional non-recycled PET film and are suitable for POS graphics and general labelling applications.

*KP5000: Winner of the Award for Sustainability at the Label Industry Global Awards 2015*

### The Mothergreen® range

Product code	Description	Primary uses
KP5000 recycled	50µ printable clear polyester / PAT1 adhesive / 96gsm one side polycoated glassine liner	Roll label for clear label production
KP5010 recycled	50µ printable bright silver polyester / PAT1 adhesive / 96gsm one side polycoated glassine liner	Roll label for promotional label production
E-2301RC recycled	50µ printable clear polyester / R51 removable adhesive / 130gsm two sides polycoated kraft liner	Sheet screen and UV digital printing for wet applied removable window graphics
RE505S recycled	50µ printable clear polyester / Si5 easy apply removable adhesive / 121µ two sides polycoated kraft liner	Sheet screen and UV digital printing for dry applied removable window graphics

### The Council for PET Bottle Recycling

In order to promote PET bottle recycling in Japan, the Council for PET Bottle Recycling organization was established by PET bottle related industry organizations such as the Japan Soft Drinks Association, Japan Fruit Growers Cooperative Association, the Japan Fruit Juice Association, the Japan Soy Sauce Brewers Association, the Nippon Distillers PET Bottle Recycle Association and Japan PET Bottle Association.

Lintec Mothergreen® products are recognised by the Council for Bottle Recycling – see Page 2 & 3.
